Recommendation List

Based in the Upper Palatinate, Bavaria, Germany, Lippert GmbH & Co. KG, with 400 employees, representations in 40 countries and an export quota of 50%, is a global player with an international presence. Our engineering expertise is in demand worldwide – our solutions delight thanks to their innovative technology, high quality and level of performance. With more than 70 years of experience Lippert GmbH & Co. KG is your partner for customized solutions in logistics systems and industrial solutions.

Construct AP company is a reliable partner to implement the high-quality requirements of us and our customers.

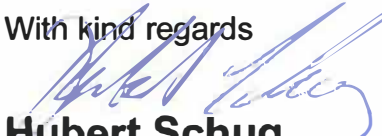

They will be responsible for the following activities:

- Switch cabinet construction
- Complete electrical installation of our systems (including supervising)
 - Cable duct
 - Laying cables (including bus systems)
 - Connection to the control cabinet
 - Wiring of emergency stop chains
 - Electrical measurements with documentation
 - Documentation of changes in the circuit diagram
- Ensuring deadlines
- Support of commissioning of the systems

So far, we have completed successful 96 projects with Construct AP at well-known customers in the field of logistic systems and industrial solutions. In addition to projects in Germany, the company Construct AP was also internationally in countries such as Switzerland, Czech Republic, Hungary and Malaysia on the road.

Construct AP has always been a reliable and loyal partner to us. We would like to thank Construct AP for the excellent cooperation and look forward to furthering projects.

With kind regards

Hubert Schug
CEO Lippert GmbH & Co. KG

Markus Walberer
Head of Electronic Production & Assembly
